## Option 1

Prescription Drug Plan

### COVERAGE

---

### COST

- Medigap: ~\$200 per month  
Drug plan: ~\$46 per month

- Typically \$0 premium
- Copays and co-insurance for services
- \$9,250 out of pocket-maximum maximum (in-network)
- May need a referral
- May only see in-network doctors

---

Pay as you go

# What should you consider?

It's a personal decision based on cost, convenience, and health history. Consider the following questions:

- What am I willing/able to spend on premiums, deductibles, coinsurance, and copays?
- Does the plan I'm considering have all the benefits I'm looking for?
- How important is it to me to have vision, dental, and hearing services covered?
- Am I okay with having a restricted list of providers and hospitals within a network?
- Do I feel comfortable using this plan to manage any chronic health conditions I have?

**Additional  
considerations**

# Special Needs Plans

Medicare Special Needs Plans (SNPs) typically offer more benefits with specific care plans. You may qualify if:

- You have a chronic condition, like diabetes or a heart condition
- You receive Medicaid assistance from your state
- You live in a facility like a nursing home and need additional care

# Financial assistance

Depending on your income and assets, you may qualify for additional assistance through:

- Medicaid
- Medicare Savings Programs to reduce Part A and B costs
- Extra Help (Low Income Subsidy) to reduce medication costs
- Additional local assistance programs

# Enrolling in Medicare

# Enrolling in Original Medicare

## INITIAL ENROLLMENT PERIOD:

3 months before and after the month you turn 65

- Enroll at SSA.gov for Original Medicare
- Enroll in Part A; you can delay Part B

If you miss it, you can enroll during the General Enrollment Period (Jan - Mar for Parts A and B). Late enrollment premium penalties apply, so don't miss it!

# Enrolling in Medicare Supplement

For 6 months after the month you're 65 and older, and enrolled in Part B, you may enroll in a Supplement plan

- No underwriting required\*
- Guaranteed renewable

6 months after the month you're 65 or older and enrolled in Part B

(you may be able enroll before you turn 65, but the plan won't take effect until the month of your 65th birthday. In short, sign up before you turn 65 so there's no coverage gap!)

If you enroll later, you may be denied based on your health history or see higher premiums.

Note: You have guaranteed issue rights typically when you have other health coverage that changes in some way. Special situations will apply.

# Working past 65

3 months before and after the month you turn 65

	Can delay without penalty if:	Cannot delay without penalty if:
<b>COVERAGE</b>	20 or more employees	Fewer than 20 or more employees
<b>CHOICE</b>	Considered "creditable"	Not considered "creditable"

## What if I'm covered by my spouse's employer?

You may be able to delay if your employer-based health coverage is through your spouse. It depends on your spouse's employer and any rules the employer has around covered dependents

# Enrolling in Medicare, after 65

If you delayed enrollment, you can enroll the month after the last month of employment or health coverage. You may:

- Enroll in Part A and/or Part B
- Enroll in Part C or Part D stand-alone plan
- Enroll in a Medicare Supplement plan (within 6 months)

↓ Month after the last month of employment or employee health coverage

# Changing your plan

If you don't like your initial decision, you can always change it!\*

\*Note: while you have opportunities to change plans, if you elect to start on a Medicare Advantage plan and then later decide to switch to a Medigap plan, you may be subject to underwriting requirements as you will be outside the guaranteed issue period.

## Medicare Annual Enrollment [October 15 - December 7]

- Switch from or into a Medicare Advantage plan
- Join, switch, or drop a Prescription Drug Plan

## Medicare Advantage Open Enrollment [January 1 - March 31]

- Open only to Medicare Advantage Plan members to switch or drop plans

## Special Enrollment Periods: Qualifying Events

- E.g. you move, lose coverage, qualify for a Special Needs Plan, start receiving State financial assistance, and other qualifying events
- Time frames vary depending on the Special Enrollment Period

# Don't be late!

If you're late enrolling in Parts A, B and D, you can face a penalty.

**Part A** 10%, if not qualified for premium free

**Part B** 10%, if not qualified for special enrollment period (e.g.loss employer coverage)

**Part D** 1% of current average premium for each month, if more than 63 days without creditable coverage\*

\*Note: see the "Terminology" section for what qualifies as creditable coverage

# Getting through the terminology

---

## **Benefit Period**

The length of time Original Medicare uses to assess your use of hospital and skilled nursing facilities. It begins the day you're admitted as an inpatient to a hospital or skilled nursing facility and ends when you haven't gotten any care from these facilities for 60 consecutive days.

## **Coinsurance**

The amount of money (usually represented as a percentage of the total cost) that you may be required to pay for services once you hit your plans deductible.

## **Copay**

The amount of money you may be required to pay for medical services or supplies, like doctor's appointments and medications

## **Deductible**

The amount of money you will be required to pay out of pocket for healthcare services and supplies including medications before your insurance plan starts to cover any amount of the costs

## **Lifetime reserve days**

If you have Original Medicare and require hospitalization for more than 90 days in a single benefit period a portion of your costs for 60 additional reserve days will be covered. You'll pay coinsurance for each one of these reserve days, and Medicare will cover whatever is left over.

## **Out-of-pocket limit**

The maximum amount you have to pay for covered health care services in a plan year is called the out-of-pocket maximum. Medicare Advantage plans are required to set annual dollar limits on these costs. Original Medicare does not have an annual out-of-pocket maximum.

## **Premium**

The monthly payment you make to Medicare to receive the benefits of your healthcare plan.

## **Creditable coverage**

Coverage and plan benefits that are up to the same standards as Medicare are considered "creditable coverage". Beneficiaries with other sources of creditable coverage - for example, through an employer - may stay on that plan and avoid late enrollment penalties.
